[Special to The Times-Dispatch.]

New York, June 4.—Wall Street experienced to-day the biggest bear raid it has had in five years, several hundred thousand shares being dumped on the floor to be sold "at the market."

During the first hour of trading practically every stock on the board broke heavily, and many of the more conservative securities touched the lowest level since the panic days of 1907-8.

Several causes contributed to this marked decline, which began in London and was forecast here on Tuesday. The chief of these was the continued unloading of American securities by foreign investors, which began shortly after the receivership processing an shortly after the receivership processing and statution is concerned, it would be legal to compute incomes for 1912 from March 1.

The activity of the sugar tariff forces was partially responsible for President Wilson's statement that powerful lobbying influences are at work in Washington to effect changes in the tariff bill. Several names were added to-day to the list of persons who are being subpoenaed by the Senate committee, and who will testify Saturday as to whether or not they are "lobbyists." These include employes of a bureau maintained here by the Louisiana sugar growers, and various persons who have been connected with the antifree sugar fight.

Senator Ransdell discussed freely the organized activity of the Louisiana sugar cane growers, but he believed little money had been spent, as compared with the amount spent by Claus Spreckels, the Federal Sugar Refining Company, and Frank C. Lowry, of New York, said to be an employe of that company, in the attempt to create a public sentiment in favor of free sugar. "I urged the Louisiana people to organize two years ago and combat the false sentiment that was being created in favor of free sugar," he said. "But they did not act in time."

Epsom, Eugland, June 4.—To-day's race for the derby, the "blue ribbon" of the British turf, was one of the race for the derby, the "blue ribbon" of the British turf, was one of the most sensational on record. It was made memorable by a daring militant suffragette outrage, in which a woman was terribly injured while trying to stop King George's horse, Anmer, when he was running at full speed round Tattenham Corner; by the disqualification for bumping of Craganour, the favorite, after he had finished, and by the award of the race, with its stakes of \$32,590, to Aboyeur, a 100 to 1 shot. King George, Queen Mary and a large assembly of royalties were witnesses of these exciting incidents.
